SQL

PROJECTS

- ✓ **Bubble game**
Technology : HTML, CSS and Javascript.
Created a fun game with the use of HTML, CSS and Javascript . Used the event bubbling to make things pop.
- ✓ **House Rate Prediction (sem 6)**
Technology : Machine learning & python
We made this project in a team of four. The goal of this project is to evaluate data of houses around in the city and predict the prices of houses as per requirements of customer.
- ✓ **Travel World (sem7)**
Technology : MERN stack.
We have created an e-commerce website Travel World which helps user to find places for traveling which is user friendly simple, fast, and cost- effective using MERN stack.
